

ModernFi

We help financial institutions grow, retain, and manage their deposits

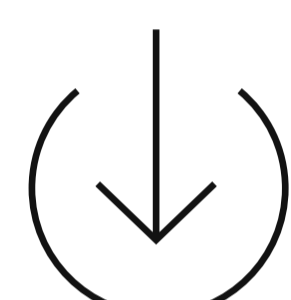

Financial institutions of all sizes rely on ModernFi for essential services including providing extended insurance to depositors, sourcing overnight and term funding, balance sheet management, and revenue growth.

ModernFi's insured sweep accounts attract and retain large-value depositors by offering extended insurance through program institutions, while the deposit network helps institutions efficiently manage excess liquidity and source cost effective funding on demand.

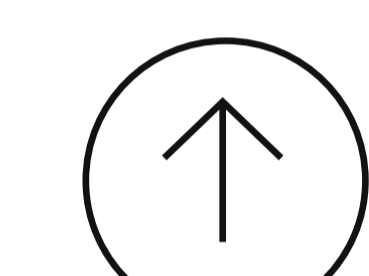

Reciprocate deposits to grow and retain funding

Reciprocate deposits with other financial institutions to retain & grow large-value depositors and improve the insured composition of your balance sheet

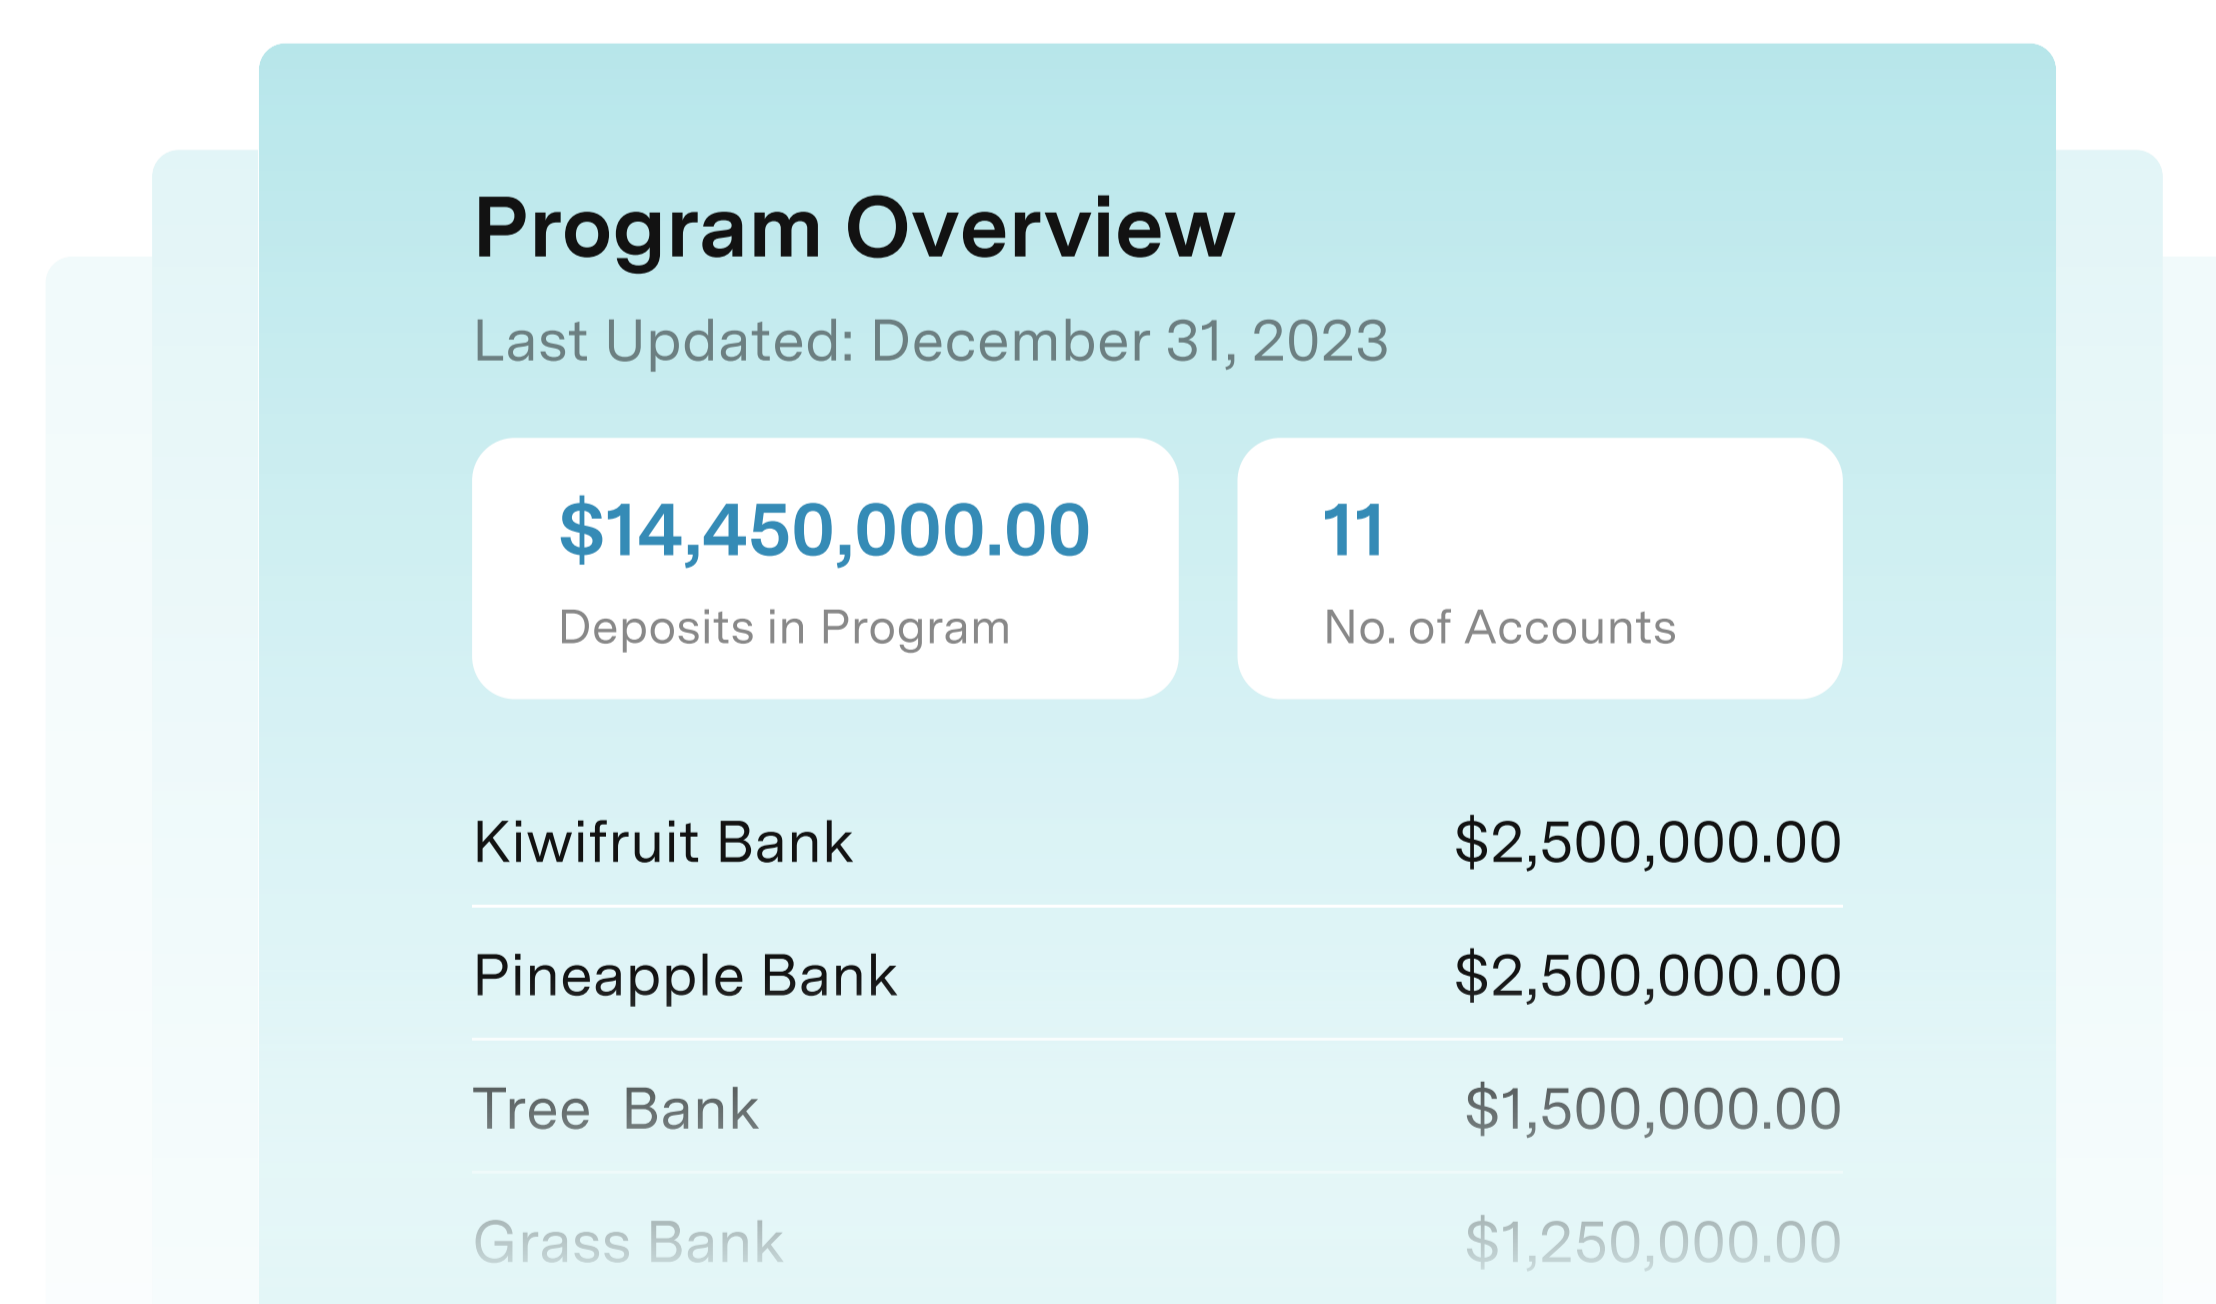

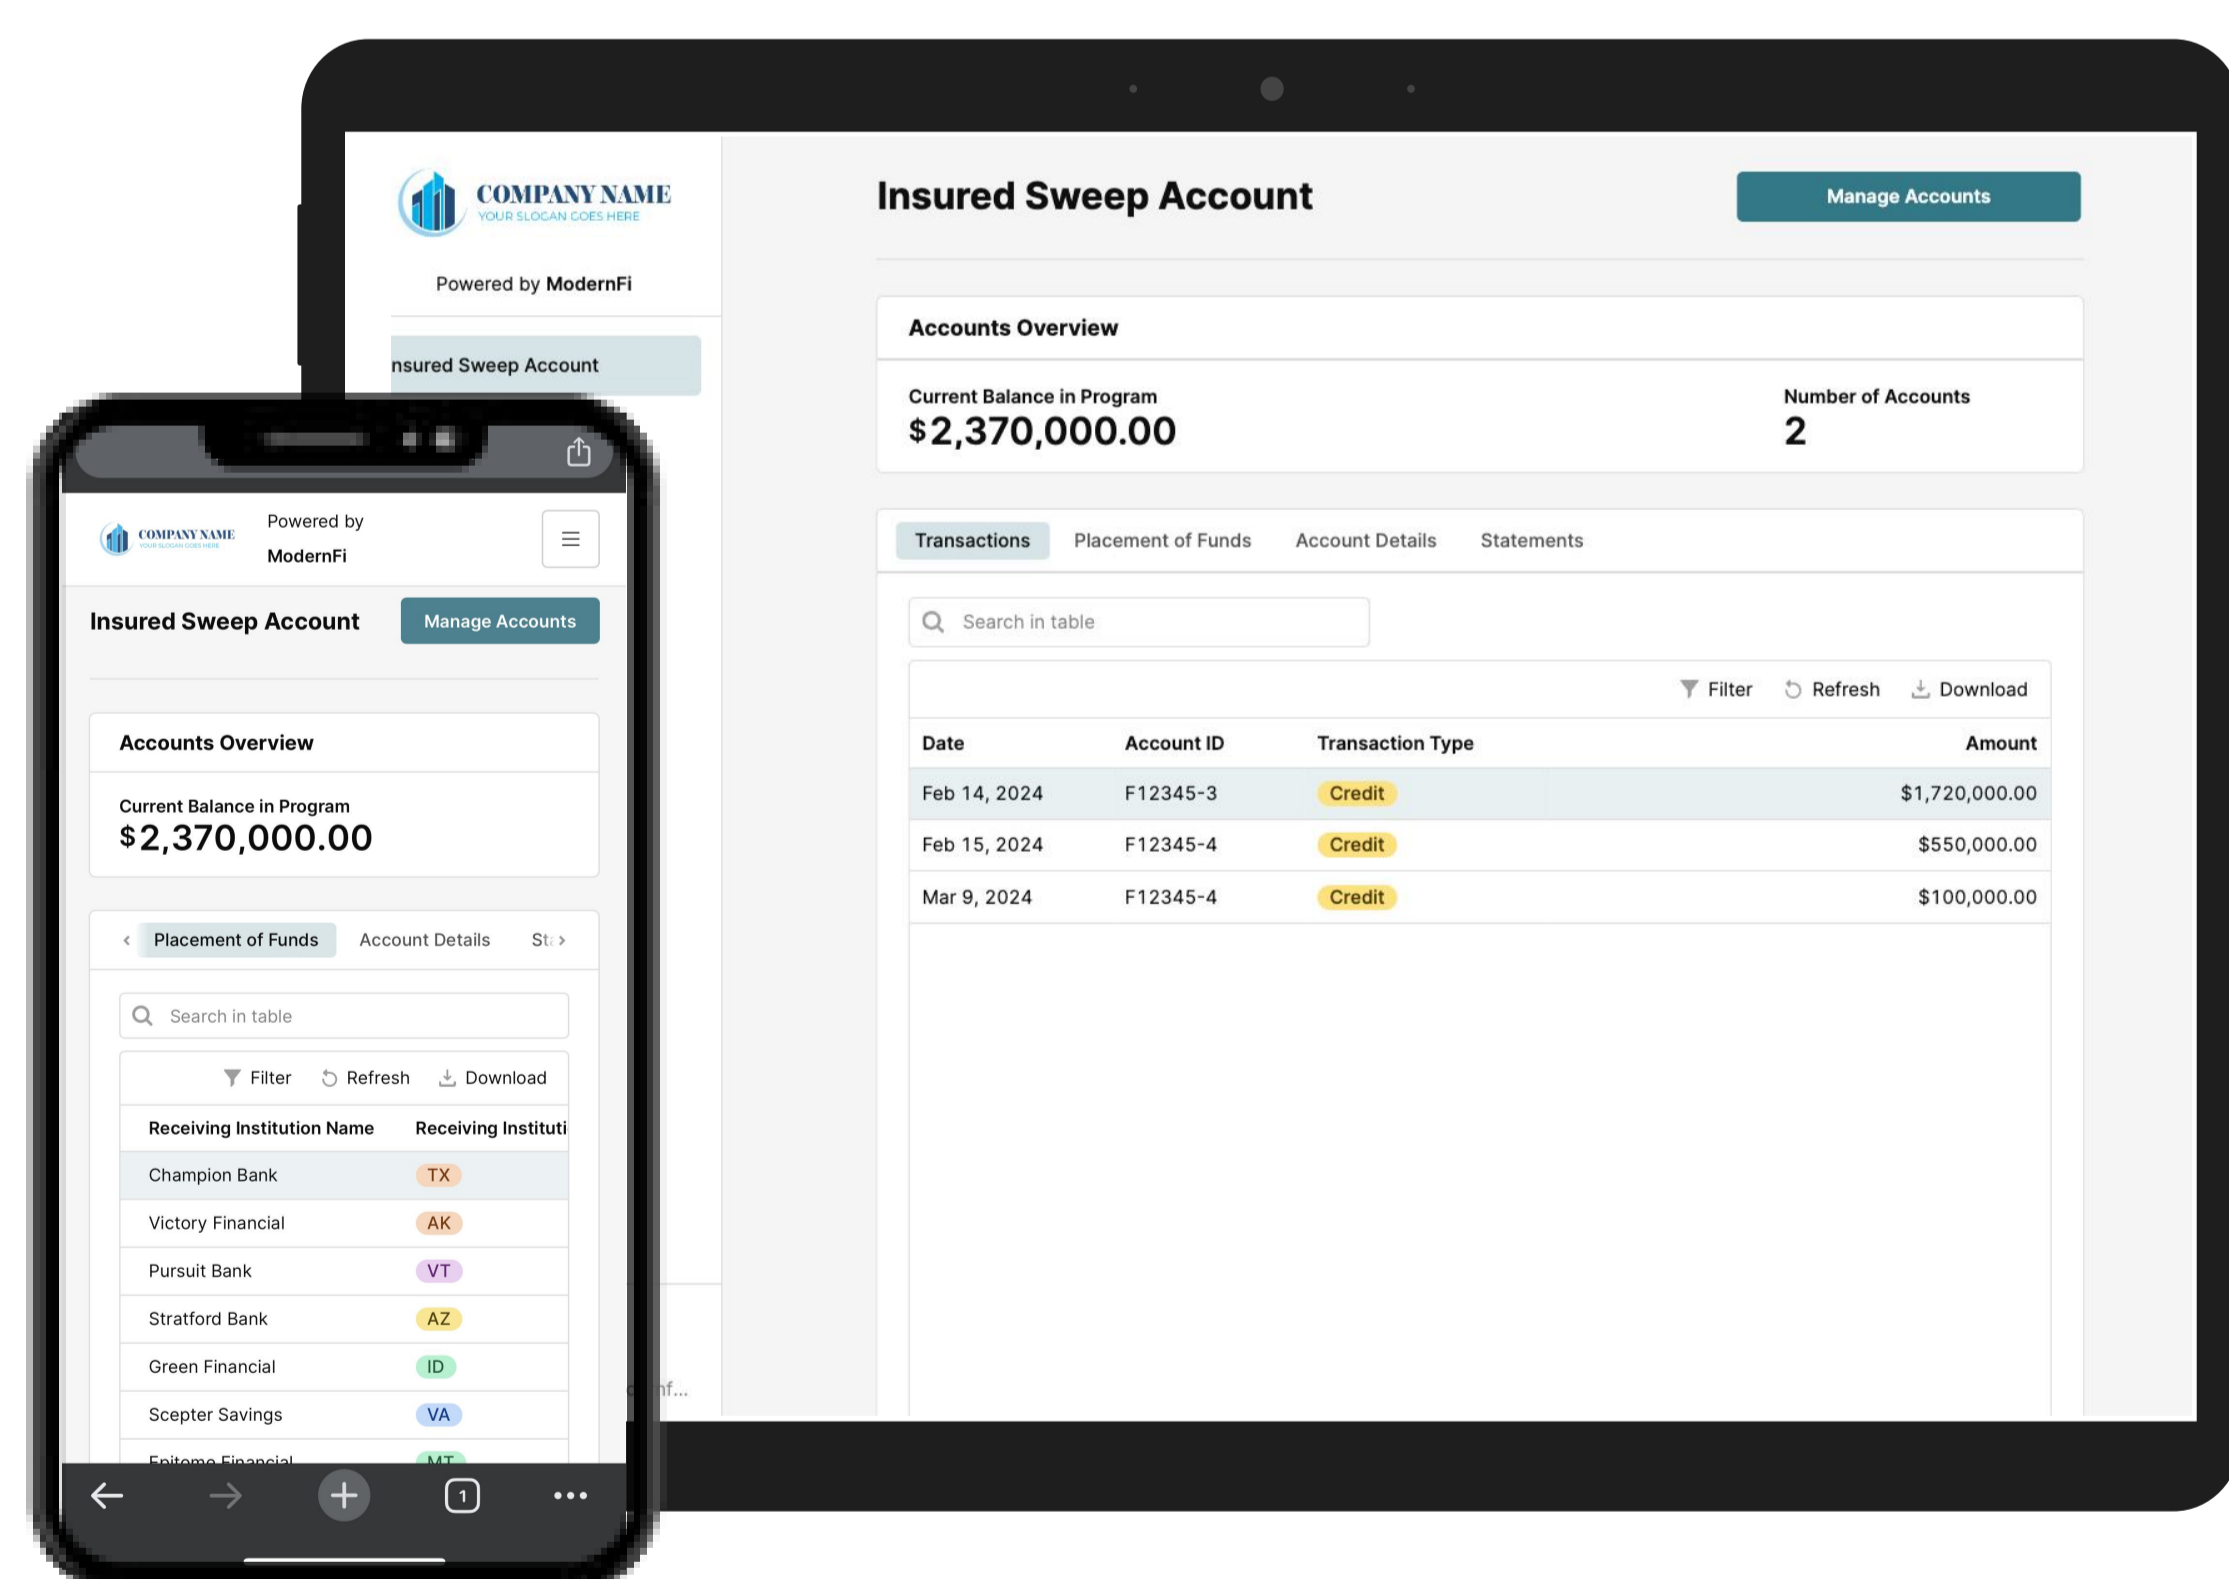

Source overnight and term deposits on demand

Source stable, cost-effective deposits on demand directly from other institutions and external sources to shore up liquidity and fund asset origination

Sweep excess deposits to improve performance

Sweep undeployed deposits to other financial institutions to improve capital ratios, return on assets & income, and remain below regulatory thresholds

Patent pending

Attract & retain high-value customers

Depositors can open, view, and manage their insured sweep accounts seamlessly within their online or mobile banking interface

Empower your operating teams

Treasury teams use ModernFi's web portal as a deposit command center, leveraging seamless order execution, tracking, and reporting
